About Madrid

Madrid has been crafting unique curved wood products since 1977. We began as an innovator in the skateboard industry and have manufactured wood elements for the furniture trade for over 30 years. Today, Madrid is a leading manufacturer of wood architectural products. In addition to acoustical wood products, Madrid manufactures curved wood custom plywood sheets, wood ceiling tiles and woven wood products. Contact Madrid or your local representative for more information.

Madrid makes you look good.
